An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Eng on 8-8-2005

The application has been amended as follows:

Claims 67 and 69 have been canceled.

P. 1 of the specification at the end of line 3, - - now US Patent 6,677,365 - - has been inserted.

The following is an examiner's statement of reasons for allowance: Applicants have limited the treatment of diseases recited in the method of use claims to those specifically supported and enabled by the specification. For enablement see the tests in the specification at p. 60-62, particularly "Inhibition of MCP-1 Induced Chemotaxis of THP-1 Cells". This is a recognized test for compounds known to be of benefit in the treatment of multiple sclerosis, etc. See Chemical Abstracts 128:87687 and 123:179521 for example.

Also note that claims 67 and 69 drawn to a pharmaceutical composition and a pharmaceutical method respectively, where the active ingredient is a mixture of the instant compound and at least 1 other active ingredient, which is recited broadly as to function, have been canceled.
